

## CHESS

### Direct Beneficiaries by the use of water filter devices

Schools / Health Posts	Direct beneficiaries	# of primary grade classrooms in each school	# of filters distributed	Classroom still pending to receive filter
California	122	4	4	
Osneyda	48	2	2	
Sta. Barbara	68	3	3	
Santa Rita 2	36	2	2	
Santa Rita 1	228	10	10	
Nandayosis 2	99	4	3	1
Nandayosis 1	195	4	4	
Calle Nueva	60	3	3	
El Apante	22	4	1	3
Buenos Aires	27	4	1	3
San Miguel	68	3	3	
Gustavo Carrion	623	18	16	2
Health Post El Caimito**	329	1	1	
Health Post El Apante**	109	1	1	
Health Post Monte Fresco*	0			1
Villa El Carmen Main Health Center***	0			2
<b>Total</b>	<b>2034</b>	<b>63</b>	<b>54</b>	<b>12</b>

\* Monte Fresco does not have the appropriate infrastructure to store a filter. They prefer to wait and have a secure place to store it. CHESS is trying to find funds to fix the facilities.

\*\* Approximate number of patients attended per month

\*\*\*The main Health Center requested two filters one for the Emergency Room that attends 30 patients per day and one for the administrative area that has 63 workers.

**Projection for 2008: to have full coverage of the classrooms and health posts attended by CHESS.**

## CHES

Amount of hours per day using water filter devices

Schools / Health Posts	Filters	Estimated time			
Sta. Barbara	3	4			
California	4	4			
Calle Nueva	3	4			
El Apante	1	4			
Santa Rita 1	10	4			
Santa Rita 2	2	4			
Buenos Aires	1	4			
San Miguel	3	4			
Gustavo Carrion*	16	92			
Nandayosis 1	4	8			
Nandayosis 2	3	4			
Osneyda	2	4			
Health Post El Caimito	1	4			
Health Post El Apante	1	4			
<b>Total</b>					
	54	148	Time per day of the use of water filter devices		
* Gustavo Carrion is the largest school because it is an Institute, it holds classes during the mornig and afternoon
